Stimpson's Fot Air Cooking Range.

Pong's Improved Range—1845.

THF Subscribers are hoppy to inform their frierds and the public that they have recently hade and one properties in their COOKING RANGES as to combine great perfection in their persons with much economy in the communition of duel, their new Range not requiring mote than two faireds as much fuel as the old one. In our new upopowement the Fixes and Dampers are so arranged that each Fine will draw well with all the Dampers open or either I life may he used a parately. All the Fixed are imprecised with the Oven educing it to bake even with a small quantity of fuel, and readering it entirity a netessary to change the articles while baking. Our patterns are entirely new, and regard has been had to durability in their construction and samplicity in their construction. In cuttre of aparton has been made in the arrange ment for warming additional recome afforting a model larger quantity of Hot Air than could be obtained by the former me had and so dirated as to entirely prevent the nurbeing rendered in impure by the gas from the noal or these all from cooking. After more than twenty years experience in the innunfacture of various kin be of Cooking Apara to we believe we now offer to the public a Range superior to any introductor and their set and there is to the public a Range superior to any introductor and their set our discretion is war and there we make the public a Range street and for sale at Ng 26 blerchards a Row, Bissian to the set of the public and the set of the public and

The Subscribers are happy to inform heir friebds and the public that they have been appointed and the public that they have been appointed and the public that they have been appointed and the property of the sale of the above Ranges, and have one now set and in operation at the restord and the sale of the above Ranges, and have one now set and in operation at the restord and the sale of the above Ranges, and have one now set and in operation at the restord and the restord a
